Work History

2022-01 - Current

Senior Frontend and Backend Developer

Rafik, London, United Kingdom

This job is for mobile app version.
At first he asked only mobile version and I made it with React native.
He was satisfied with my working result and he implemented web version.
I finished only 5 days about web version and he was very happy.

2021-05 - Current

Full Stack Development

Marco designies, Krizevci, Croatia

This job is for full stack developer.
In this job he asked web and mobile app development
At that time I was very interested in this job format and he tested my skills.

So this project is booking system and I finished this app with Laravel for web.
Also now I am developing the mobile version and I am building with React native.
He is very happy with my work and I do my best for him.
Croatia is tourism country and he wanted super app from me.
Now he made many client with this app.

Education
